

“With Project, team members can immediately get the status for their own work tasks and synchronize those to Outlook. That's a tremendous benefit for us because it improves the line of communication and helps speed up productivity.”

Mike Vicary – Program Manager, IT Projects, ATS

Advanced Technology Services (ATS) is a leader in factory maintenance and technology services. Founded in 1985, ATS employs more than 3,000 people across the United States, Mexico, and the United Kingdom and is headquartered in Peoria, Illinois.

SITUATION

ATS needed clear visibility into capital and operational costs for the projects and programs in its IT department. It worked with Sensei Project Solutions, 2014 Microsoft Project and Portfolio Management Partner of the Year, to develop best practices and implement a PMO.

BENEFITS

- ❖ Easy adoption, even for complex capital projects
- ❖ Better decision making by managing risks, issues, using real-time data
- ❖ Visual reporting for concise, expedient understanding of data
