

“We are striving to standardize and master best practices in the execution of IT projects and improve our project management maturity level and the quality of our deliverables to the business. Project Online is helping us achieve those goals as a centralized tool that provides structure, guidance, and current best practices to achieve project success .”

Andres Jaime – Senior Program Manager, Barry-Wehmiller

Barry-Wehmiller’s companies help bring the world the products people need every day through manufacturing technology and solutions serving a diverse platform of industries--packaging, paper converting, corrugating, engineering and IT consulting.

SITUATION

Having acquired more than 100+ companies over the years, Barry-Wehmiller has experienced incredible growth and the need of a formal Project Management Center of Excellence with world-class tools. BW chose Microsoft Project Online with Sensei’s proven best practices solutions, training and reporting to improve their process.

BENEFITS

- ❖ Standardized project management approach and improved communication
- ❖ Single pane of glass for visibility into projects and resources across the organization
- ❖ Early warning on troubled projects; enabling corrective action and continuous improvements
