

“Automated reporting provides visibility to our entire team and senior executives. We can now measure our workload and plan out staffing needs in advance. Project Online with Sensei PPM Beacon™ has propelled us closer towards project management maturity.

John P. Stupp III – Director of Project Management, Stupp Bros., Inc.

Stupp Bros., Inc., with the rare stability of over 160 years of continuous family ownership, produces the essential materials to build pipelines, bridges, and large commercial structures for customers in both the private and public sectors.

SITUATION

When Stupp Bros., Inc. identified project management as a strategic core competency to propel it into the future, it turned to Microsoft and Sensei for a world-class, best practices Project and Portfolio Management solution delivered by Sensei on the Microsoft cloud.

BENEFITS

- ❖ Visibility into capital and major expenditure projects and increased executive sponsorship and support
- ❖ Governance workflow mapped to capital and major expenditure allocation and approval process
- ❖ Projects delivered within budget; from 50% to an estimated 100% compliance in year 1
